

NEW YORK, NY, MARCH 1, 2021

## Experts' Choice Awards 2021 awarded to the best hotels, restaurants and attractions in the world

The only accolade based on professional reviews

We're excited to announce today the winners of our [2021 Experts' Choice Awards](#). The five thousand winners in 123 countries represent the best in travel. In a challenging year for the industry, many of our winners have shown amazing resilience and creative thinking, as we describe in our [announcement post](#).

Now in its fifth year, Experts' Choice continues to be unique in the industry for being based on professional reviews. Our sources are travel guides, magazines, newspapers and leading blogs. All reviews are written by people who have travelled extensively in the relevant area and who can provide reliable and unbiased advice.

As a result of the pandemic, no awards were made in 2020. Since our last awards season, we've improved our coverage of more remote travel destinations, including national parks and nature reserves, which are now more popular than ever.

"We're looking forward to engaging with this year's set of winners," said Chris Blume, Chief Content Officer. "In past years, thousands of winners have proudly shared news of their awards on social media and by posting press releases and adding Experts' Choice badges to their websites. We're proud to once again provide a small slice of good news in challenging times."

## More information
