The best of the global travel industry recognized in the 2022 Experts' Choice Awards

The only accolade based on professional reviews

We're excited to announce today the winners of our [2022 Experts' Choice Awards](#). The six thousand winners in 121 countries represent the very best hotels, restaurants and tourist attractions.

Now in its sixth year, Experts' Choice continues to be unique in the industry for being based on professional reviews. Our sources are travel guides, magazines and newspapers; we rely only on content written by people who have travelled extensively in the relevant area and who can provide reliable and unbiased advice.

We've made several improvements to our rating process since last year's awards. We've made it easier for outstanding, recently opened businesses to win the award - even if they have not yet had the opportunity to accumulate many reviews. We also continue to improve our coverage outside major urban areas. As a result of the pandemic, there has been an increase in interest in vacations in more remote areas, especially national parks and other wilderness reserves. We're helping more travelers than ever make the best choices for where to stay and what to do on all kinds of vacations.

"It's been a pleasure to see Experts' Choice increase in prominence in the travel industry over the past six years," said Chris Blume, Chief Content Officer. "We're proud of this year's winners and I look forward to working with them to help them share news of their award."
